

ROWAN FRANCISCUS

I am an independent self-starter and an eager and quick learner. I enjoy taking on challenges and improving my problem-solving skills and creativity. My goal is to be a full-stack web developer and eventually, a tech entrepreneur.

I am currently self-studying web development and with my design background, I can bring a comprehensive outlook to any project. I work with the bigger picture in mind. I always try to think about a project from multiple perspectives; whether it be from a technology, design or entrepreneurial stand point.

I have a passion for problem solving and design. I would like to create websites with clean and robust code, high quality UI and a compelling user experience.

- Adobe AfterEffects

Education

Delta Secondary School
2013

High School Diploma

University of Cape Town
2014 - 2016

Bachelor of Architecture

GetSmarter
August 2016 - October 2016

Start & Manage a Small Business

Experience

Delta Secondary School
2012 - 2013

Deputy Head Boy

I worked with the Head Boy and Head Girl to carry out various leadership duties for the students of our school.

Plates South Africa
Jan 2017 - Nov 2017

Founder

I started Plates, because I noticed that there were no good home-made food options for students around my university area.

FoodBox Namibia
Nov 2017 - Dec 2018

Co-founder

After moving back home to Namibia, I teamed up with my business partner to start a meal prep company, that would provide healthy meals for customers that were too busy to prepare their own meals.

Power Nutrition
May 2019 - Apr 2020

Founder

This was my second meal prep company. We provided healthy meals for busy and fitness-focussed individuals. We also provided meals to the Namibian National Rugby Team leading up to the 2020 World Cup in Japan.
